

SAINT ANNE'S TERRACE
MEMO

TO: Residents/Families
FROM: Terri Monroe
Date: January 11, 2021
Subject: COVID

Last night at 7:00 p.m. I was informed a dietary staff member tested positive for COVID. This person potentially exposed 16 other employees in dietary, which is all but 3. This morning 3 chefs and 2 managers are going to receive a rapid test. We are working on having VNA come to the Terrace to test the other employees. As we do contact tracing this morning if you were exposed to this employee you will be contacted.

The dining room will be closed for today and tomorrow. You will receive a boxed **lunch** for today and tomorrow, but it will not be the menu you previously ordered. **Please note your boxed meal will be delivered at lunch not in the evening.** I will keep you posted as to the status of the testing for the employees.

I did send in our information to the Briarcliff Pharmacy regarding our COVID vaccine. As soon as they give me a date for our vaccines, I will inform everyone.
