

SAINT ANNE'S TERRACE
MEMO

TO: Residents/Families

FROM: Terri Monroe

Date: August 9, 2021

Subject: Dinner Services

I found out this morning that one of our utility employees (kitchen) has a child in elementary school who tested positive for COVID-19 last Friday. This employee only worked two days last week but potentially exposed 16 employees in the kitchen. The employee does not have symptoms, but the child does.

Starting today we will be delivering meals to your apartment for the next few days while everyone exposed is tested for COVID-19. Meal delivery will begin at 3:30 p.m. today. I will keep you updated.

Terri Monroe
